Universidad Central del  
Ecuador,  
Quito,

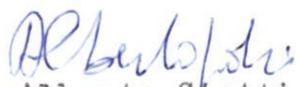

Dear Professor Naranjo,

As you may already know, the Academic Press in association with the Italian Pharmacological Society, is publishing a new journal, Pharmacological Research Communications; the first issue of which is scheduled to come out in January 1969. The journal aims at the rapid publication of research data in the specific field of pharmacology.

We would be very honoured to have a paper from your laboratory in the first issue, which we naturally wish to be of particular interest. May we remind you that all manuscripts should be sent to the Secretary of the Editorial Board, Prof. A. Giotti, at the above address; and must conform to the instructions included herewith.

We look forward to a valuable contribution from you or your colleagues.

Yours sincerely,

  
Alberto Giotti
