

Dr. Plutarco Naranjo

Santiago, 31-Marzo-1966

Estimado colega:

Como en años anteriores las Compañías Riker han otorgado becas para estudios de Farmacología en EE.UU., el Reino Unido y Australia. Más abajo transcribo el texto de la comunicación recibida por el International Union of Pharmacology (IUPHAR) encargada de otorgar estas becas. Como el plazo en que deben estar las solicitudes en poder del Secretario de IUPHAR es el 1° de Mayo, nos vemos obligados a establecer como límite para la recepción y antecedentes en Santiago el 20 de Abril próximo.

El siguiente es el texto de la parte pertinente de la comunicación de IUPHAR:

Dear Colleagues,

By courtesy of the Riker Companies (Australia: the Riker Laboratories Australia Pty Ltd., Mr. R.J. Preiss; U.K.: the Riker Laboratories Limited, Mr. J.A. Lumley; U.S.A.: the Riker Company, Dr. G. Maisson) the fellowship listed below will be available for the year 1966-1967:

Four Fellowship in U.S.A. at \$ 4,000 each

Four Fellowship in U.K. at £ 1,000 each

One Fellowship in Australia at £A 1,964

Additional allowances will be considered for applicants incurring large travel expenses.

Purpose:

The purpose of Riker Fellowship is to further better international relations among young pharmacologists who show considerable early promise but who have not yet advanced to the point at which other sources of fellowship support are likely to be available to them.

Selection of Candidates:

As in the past, candidate should be aproved:

1. by the pharmacological organization of his country or area, and
2. by the Council member of his country or area, who receives and transmits their names and covering documents (curriculum vitae, letters of recommendation, description of interests, statement of qualification etc.).

Each pharmacological organization will be asked to designate not more than one candidate for the U.S.A. and one for the U.K. respectively.

Preliminary Application:

It is strongly recommended that the candidate specify in their application the laboratory (ies) in which they would like to work: if at all possible they should append a letter from the Head of the Department in which they wish to be accepted confirming that there is bench space available for them in that department.

Aprovecho la oportunidad para saludarlo con toda atención.

Prof. Dr. Jorge Mardones
