July 6, 1976

Dear Colleague:

The American College of Allergists invites you to attend the first International Food Allergy Symposium to be held in Toronto, Canada, October 10-15, 1976, at the Four Seasons Sheraton Hotel. This distinctive hotel is a city within itself, where your committee has arranged a convention package to allow you to enjoy dining, dancing, shopping, movie theaters and a 2½ acre park with a breathtaking waterfall.

Toronto was selected for this symposium because of its exceptional medical, educational facilities for post graduate training. This medical community has been most cooperative in extending hospitality and friendly assistance to insure the success of our meeting.

The principal goals of this symposium are improved care for our patients and aid in preparation for future ABAl examinations. A most distinguished faculty has been chosen to present the subject matter.

Continuing medical education credit becomes increasingly important as the close of 1976 approaches. This symposium is approved for twenty-five hours of Category I credit, which may be sufficient to satisfy your CME requirements for this year.

The registration fee of \$170 for members of the American College of Allergists and \$190 for non members includes three luncheons and all coffee breaks. Additional luncheon tickets may be purchased at the registration desk. Your committee has arranged special fares from almost every major city in the United States to Toronto, if you wish to fly. If you prefer to drive, the city is easily accessible by car. If you do drive a car from the United States, all you need is its registration. If you rent one in Toronto your American driver's license is sufficient.

You will find Toronto a stimulating, thrilling, fun-filled city for the entire family with shopping facilities of an international inland seaport and almost total freedom from street crime. Entertainment includes wonderful restaurants, night clubs, art treasures and historical museums. Ontario Place has 96 acres of music, movies, park land, clowns, waterplay and relaxation. The Canada National Tower (the world's tallest structure) standing at 1,815 feet tall, almost twice as tall as the Eiffel Tower, offers a revolving restaurant

at the 1,150 level and two observation decks at the 1,500 foot level, with a potential view of 100 miles. Just a few blocks east of downtown Toronto is the St. Lawrence Market Area built in 1844. Neaby, on King Street, is St. James Cathedral, built in 1853.

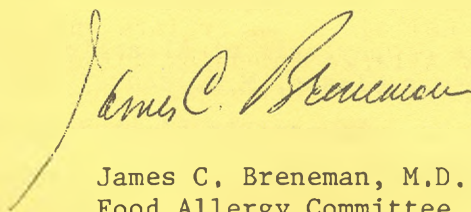

The preliminary program, advance registration card, hotel reservation card and special air fares are included with this mailing.

Please return your hotel reservation card with your deposit to:  
Ambassador Travel Service, 202 East Michigan Avenue, Kalamazoo, Michigan, 49006,  
regardless of your mode of transportation.

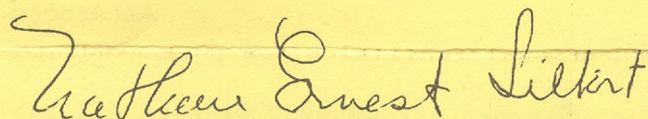

Your advance registration card, with the proper registration fee, is to be sent to the American College of Allergists, 2141 14th Street, Boulder, Colorado, 80302.

Do plan to meet us in Toronto for the first International Food Allergy Symposium.

Sincerely,

James C. Breneman, M.D., Chairman  
Food Allergy Committee

Nathan Ernest Silbert, M.D., President  
The American College of Allergists

Orville C. Thomas, M.D., President-Elect  
The American College of Allergists

INTERNATIONAL FOOD ALLERGY SYMPOSIUM

October 11, 1976

Morning Session

MODERATOR: Robert J. Dockhorn, M.D.

- 8:30 a.m. Official Greetings  
Nathan Ernest Silbert, M.D., President  
The American College of Allergists  
James C. Breneman, M.D., Chairman  
Food Allergy Committee  
Welcome to Toronto
- 9:00 a.m. Food Allergy Mechanisms  
William T. Kniker, M.D.
- 9:15 a.m. The Ten Most Common Offenders in Food Allergy  
Frederic Speer, M.D.
- 9:45 a.m. Allergic Tension-Fatigue Syndrome and Other Unusual Manifestations  
of Food Allergy  
Albert Rowe, Jr., M.D.
- 10:15 a.m. COFFEE BREAK - FOR DISCUSSION
- 10:30 a.m. GI Allergy  
William C. Deamer, M.D.
- 11:00 a.m. Which of Your Recalcitrant or Non-Responsive Patients Has  
a Food Problem?  
Doris J. Rapp, M.D.
- 11:20 a.m. Skin Allergy and Foods  
John S. Hyde, M.D.
- 11:50 a.m. Children with Asthma and Allergic Rhinitis-Elimination Diets  
Joseph D. Bullock, M.D.
- 12:10 p.m. G.U. Allergy  
John W. Gerrard, M.D.
- 12:30 p.m. LUNCH - Followed by Round Table Discussions

Afternoon Session

MODERATOR: Allan Hurst, M.D.

- 2:00 p.m. CNS Food Allergy  
Frederic Speer, M.D.
- 2:30 p.m. Practical Problems Related to Food Allergy Double-Blind  
Studies in Practice  
Doris J. Rapp, M.D.
- 2:50 p.m. The Role of Foods in the Causation of Nephrosis, Membranous,  
Glomerulopathy, and Henoch-Schönlein Disease  
Douglas Sandberg, M.D.
- 3:20 p.m. The Clinical Usefulness of an Elemental Diet as A Diagnostic  
Tool in Food Allergy  
Stanley P. Galant, M.D.
- 3:45 p.m. COFFEE BREAK - FOR DISCUSSION

4:00 p.m. Food Colors and Food Additives  
Stephen D. Lockey, M.D.

4:30 p.m. Food Additives

October 12, 1976

Morning Session

MODERATOR: David L. Morris, M.D.

8:15 a.m. Welcome to Day 2 Food Allergy  
Orville C. Thomas, M.D., President-Elect  
The American College of Allergists

8:30 a.m. Immunology of Food Allergies  
Herb G. Johnson, Ph.D.

9:00 a.m. Radialimmunodiffusion Analysis of Allergy Patients Sera  
for Antibody to Starch  
Arthur Lietze, Ph.D.

9:20 a.m. The Use of RAST in the Study of Allergy to Foods  
Cecil Collins-Williams, M.D.

9:50 a.m. Complement Studies in Food Allergies  
Douglas Sandberg, M.D.

10:20 a.m. COFFEE BREAK - FOR DISCUSSION

10:35 a.m. Mediator Release in Food Allergies

11:00 a.m. Gluten Sensitive Enteropathy, Celiac Disease, Crohn's Disease,  
and Ulcerative Colitis  
Walter Hogan, M.D.

11:30 a.m. Control of IgE in Intestinal Parasite Diseases

12:00 noon Proximal Small Bowel Transport Pattern with Milk Allergy  
Hsi-Yen Liu, M.D.

12:30 p.m. LUNCH - Followed by Round Table Discussions

Afternoon Session

2:00 p.m. An Immunologic Approach to the Diagnosis of Food Sensitivity  
Stanley P. Galant, M.D.

2:30 p.m. Food RAST in Clinical Allergy  
Zack H. Haddad, M.D.

3:00 p.m. Drugs as Ingestant Allergens

3:30 p.m. H2 Histamine Receptor-Antagonists

4:00 p.m. The Effects of the Passage of Immunologically Active Allergens  
Particular Foods Through the Breast Milk to the Newborn  
Jerome Glaser, M.D.

4:30 p.m. Coping with Food Allergies  
Claude A. Frazier, M.D.

October 13, 1976

Morning Session

MODERATOR: William C. Deamer, M.D.

- 8:30 a.m. Milk Intolerance, Lactose Intolerance, Galactose Intolerance, Colitis
- 9:00 a.m. Learning Disabilities and Hyperactivity, in Children Due to Foods  
William G. Crook, M.D.
