Muy distinguido Colega,

puedo empezar mi carta como la primera que le escribi ? "disculpe mi español".Tengo que empezar así de nuevo,por que el asunto nada comparte con los médicos escritores.

El Editor Delfino tiene idea de hacer una "Historia de la medicina" (10 fascículos anuales de 64 páginas,ricamente ilustrados) desde el tiempo antiguo hasta nuestros días.Presupuestos: claridad del estilo y conjunto rigor científico.Y el quisiera confiar algunos de los capítulos a historiadores de habla español y portugués,por que entiende difundir su historia tambien en estos paises.

Como Vs.sabe,yo no soy un historiador de la medicina,ni pretendo serlo.Mi tarea así se encuentra exclusivamente ejecutiva.Y -de parte del editor- permitame pedirle su adhesión al Comité Cientifico (y su colaboración eventual en el argumento que Vs piensa mas util y congenial).

Naturalmente tratase,por el momento,de una adhesion "provisio= nal".Claro como Vs.no pueda decidir definitivamente sin conocer más cerca del asunto.Sin embargo ya desde ahora puedo decirle que cada fasciculo comprendera una época (p.e.medicina griega) o un argomento (p.e.épidemias y contagio) conforme con las decisiones del Comité Cientifico;y que la divulgación sera notable (150.000 copias para el fasciculo 0)

Me doy cuenta del que mis explicaciones son muy pocas y superficiales.Pero esto quiere ser solo un primero encuentro, para la formación de un Comité Cientifico que pueda asegurar a la obra su aportación de experiencia y de cultura.

Si Vs. -como esperamos- nos puede hacer este honor,le ruego escribir directamente a

Antonio Delfino Editore

Via Udine 40

00161 Roma

aun naturalmente para pedirle todas las explicaciones que Vs. cree cerca del asunto.

Muchas gracias.Y saludos cordiales

PS.: Quiero añadir de toda manera que el segundo volumen sobre los médicos escritores sera publicado hacia (más o menos) el fin del año
